System Requirements For Eroica Lite:

This mod needs a game with a new world and in the same file of the mod. The file is located in the folder "Data", which must be renamed "PrivateFusion2" If you have a mod that already exists in your game, you need to remove it. If you have two mods in the same game, it's better to disable one of them, but you can only delete one mod per file in the mod menu. Installation instructions: Install it using Mod Organizer. Find the mod on the list
