
Electric Car from soundjebel (SoundPack)

Welcome to the virtual cockpit of the Airbus A330/PW/JT3D simulator. In this section of the pack you'll be able to experience the interface of the cockpit as well as the sounds and music. Each cockpit object is fully interactive, i.e. the windows, instruments. Every gear and lever of this simulator has its purpose and is fully functional in the Virtual Cockpit. Our mission was to deliver the best experience of Airbus A330 with highest possible fidelity, so we recorded with the highest quality capture- and playback system to achieve the most realistic sound experience. The Boeing 707 PW/JT3D by Turbine Sound Studios presents the digital A380 cockpit, with all its outstanding features, such as the maintenance panel, cockpit lighting, etc. This also includes a complete high fidelity audio experience. Turbine Sound Studios proudly presents the Boeing 747-400 PW4340 Pilot Edition soundpack for FSX/ P3D. The 747-400 is the most modern and most powerful wide-body passenger aircraft ever built. It entered commercial service in July 1988 and is still in active . Sound Section. Technical text about the engine - parameters and reference engine sound. Now you can listen to the engine sound (including engine running and landing sounds) on your flight sim car. The 747-400 is a twin-engine jet operated by the Boeing company. It is one of the few aircraft in the world with four engines. The sound package consists of the following items: - Main engine sound, up to level 50 dB. - Engine sound effects and recording frequencies. - Recorded sound objects, including environmental and taxi sounds. - Aircraft cockpit, engines sounds. - Cockpit lights, The 747-400 is available in two versions: - Engine used in the simulator, is powered by CFM International CFM56-5B3 turbofans. The engines have a huge amount of power in very small space. With the high-power it is possible to work with the maximum legal cabin pressure and they are quiet during takeoff and landing; - Non-powered versions (ICE 2.0 standard), powered by fuel-efficient GE90 engines. Feel free to contact us if you have any questions or problems and we would be more than happy to assist you. TSS Records the new Airbus A320 P – "Pilot Edition" soundset with high quality sound recording.
