This online program calculates the age of a person using a given date of birth What's New in 5.0.1: Added the months and days of the month in the result box. Added a mirror button to rotate the screen horizontally or vertically. What's New in 5.0: Added the months and days of the month in the result box. Added a mirror

button to rotate the screen horizontally or vertically., the user's request to open a packet gets rejected. My packet is half a day old. So is this a case of a cloud server that's not able to keep a certain server's updates for more than a few hours? Is it an inability to keep up with the data request from Google's server farm?

Both explanations seem a bit weird. A: It took a while to get to the bottom of this, but I found the cause: Google's update does not actually update Google+. But instead checks the database to see if there are some updates, and then replies to the request to update with a "New data available. Click here to reload." When I click the "Google+" link, it takes a while for the request to come back with a 200 OK, and the page does not show my profile. Instead, on a second try, I get a blank page with the message "New data available".

This results in the 400 Bad Request with Message "Request did not match any resources". Using the web browser's address bar, I can see the Google+ URL in the address bar after a "New data available", so I guess that URL must be cached by the browser. Just try several refreshes before this happens, and if this does not

help, try deleting your browser's cache. A federal prosecutor declined Friday to pursue fraud charges against a former Bernie Sanders supporter who had already served a year in prison for working at a job he didn't have. Special Agent in Charge Michael Tabler of the FBI's Detroit office told reporters that Judge Avern Cohn had not yet signed a judgment order after reviewing the case. "I can't tell you what the judge will do," Tabler said. "He has the final word." The prosecution of Leonard Norman failed to push the mailings of endorsement and other campaign literature from Sanders' senatorial campaign. Although the government succeeded in convincing the court that Norman had committed identity theft, it fell short of
