Key Features New Player Scouting Player data analysis has undergone a massive upgrade to give a more realistic representation of player abilities.

Their technical attributes are now more representative of an individual player's potential and can be improved through training. And in the updated team-builder you will find personalised player progression screens to help pinpoint which player will improve the most through a specific training plan. Additionally, an additional rookie and young player screen will enable you to better

understand the players you have in your squad. Fully Customise Your Own Team Take your team into the next level with a range of new pre-match tactics to help make the most of a match. There's also the ability to pre-rotate teams for the upcoming match or view the projected line-up that will play a specific formation. Look out for the Captain Switch and Player Swap function to make substitutions in a matter of seconds. This will save you valuable time in tactical set-ups. Included Training Discover all the ways to prepare your squad for the upcoming season: a new Training Mode will allow you to play a full season in preparation for the current season or the previous season. You can also choose to play a specific opponent to win the tactical points required to earn a position on the final table. Additionally, you can now store up to six formations and 23,000 line-ups in the new lineup manager so you can retain the same key settings for future matches. Import and Export Access the pre-match setup and lineup manager through the new Import and Export feature. With this you can easily transfer your team configurations between offline or online play. FIFA Ultimate Team The Ultimate Team mode has undergone a number of UI enhancements and will now feature a new

Experience Progression screen, which will provide you with a weekly summary of your performance on and off the pitch. New Squad Building Now, in addition to hitting the Next Gen button to help upgrade to the next edition of your current footballing favourite, you can upgrade your squad too. FIFA, previously known as FIFA Soccer, is the world’s best-selling sports gaming franchise. FIFA has pioneered the football genre and is the developer of the FIFA franchise, offering games for all major platforms, as well as for mobile. As football became more of an international sport, the gameplay evolved and FIFA games have been focused on improving the experience with continued innovation. This year, we’re making the moves on and off the pitch more intuitive than ever, unlocking brand new ways to play, to pass,

tackle, dribble, shoot and defend, and also introduce a brand new Commentary Engine that provides a more immersive experience from the sidelines. Fifa 22 Activation Code launches on September 28 for PS4, Xbox One, Nintendo Switch, PS3 and Xbox 360. Football is back and the ball is in your hands. Welcome to FIFA 22. We're really excited to invite you to play more than 30 years of gaming history behind us. The new version is already shaping the future of what FIFA can be. It's the biggest change to the sport in our 30 years of existence. It's also our biggest commitment to the fans yet. Playmaker, Attacker, Defender, Manager, Fan, Player. You will be able to choose any one of those character types and play as them in a multitude of ways. It's your ability to bring the best out of every player that will determine your success on the pitch. FIFA 22 will include game-changing changes that make gameplay easier to learn, faster to master and more responsive to player skill. The new Experience Points (XP) system allows you to unlock brand new ways to play within the existing game modes, along with a number of new features to immerse you in the game. We've also developed the Commentary Engine as a brand new feature to deliver a more immersive

experience from the sidelines. There are now much more flexible options when tackling the game. Dive tackles, manual tackles and timed tackles are new options that you can only use on players when they are body-checking. If you're tired and lose concentration, then the receiving player can taunt you for a penalty. There are also more ways to control and influence the game. With more options to play any style of football, the game is more accessible than ever. Experience Points is the simplest way to unlock new ways to play and new features. Game modes Real
