Bitmap A `_bitmap_` is a raster (pixel) image file that contains a picture, design, or illustration in your computer's hard disk. The bits in a `_jpg_` file are pixels, and they are what you can see. The image on a page or the people in a picture are made up of the pixels of the computer screen. While most computer screens are in `_RGB_` (red, green, and blue) color, the pixels that appear on your screen are actually `_RGB_ 8-bit` color (each pixel has one of the three colors).

Mr. Minister, it is normal in the defence ministry to claim civilian fatalities during an operation, but reports say that in Kashmir on Wednesday, two young men alleged they were picked up and tortured by the Indian security forces after last Friday's attack on police stations in the disputed region. Where does the defence ministry stand on the allegation of human rights violations? Dipankar Banerjee At a meeting organised by the opposition, Union Home Minister Amit Shah did not give an answer to the question asked by Mr. Banerjee. "What is the government's explanation on the report of torture and killing by the Indian army in Kashmir," Mr. Banerjee asked the home minister. Prime Minister Narendra Modi has often condemned the attack on the CRPF jawans in Kashmir. He has urged the people of Kashmir to remain united and peaceful, and urged all parties to promote dialogue and support the Constitution of India. He has assured his complete support to the security forces, and assured that the army was fighting terrorists, while the government was ready to forgive those who take up arms for any reason. While the prime minister spoke against militants, he did not speak against those who are from the armed forces. The armed forces, the prime minister said, have been engaged in counter-insurgency operations since the last 70 years. The prime minister also, while speaking about Kashmir, has said, "In fact, this is all a conspiracy by Pakistan to create a wedge in India." Mr. Shah also has spoken about Pakistan and terrorists, but it does not seem that he questioned the security forces on the allegations of torture and killing.Q: Can I substitute distilled white vinegar for white vinegar in making a homemade marinade? Can I substitute distilled white vinegar for white vinegar in making a homemade marinade? I have found several sources that claim it is OK (e.g. marinate chicken in white vinegar, vodka, brown sugar for 2-3 days, cook and bake) but can't find a single source to confirm the claim. A: There is a school of thought that says that white wine vinegar is OK for this purpose. An alternate is cider vinegar (apple cider vinegar). That is what we do in the restaurant where I work. We only have white apple cider vinegar at the restaurant, but we use it in place of white wine in marinades because

KvDaktari KvDaktari was the solo project of Niko Wennerberg, former bassist for the Swedish death metal band Dismember. After the end of the band in 1997, Wennerberg devoted himself to the solo project to produce material similar to that of Dismember. Besides producing and playing, Niko also has been a producer for Swedish based co.mX in the past. KvDaktari was founded in 1998 as a project to publish Wennerberg's material. Wennerberg collaborated with Änglagård frontman Tomas Lindberg to produce the first two demos and debut album. Later demos and albums were produced with Benny Golmstrand of Dark Tranquillity, Fredrik Nordin, Jesse Lönqvist and Morten Viggo Lund. However, KvDaktari broke up as a project in 2003 after they decided they would rather concentrate on other projects. A few years ago, the number was set at 85,000. The fiscal year will end on September 30, 2015. The administration is already receiving applications. If the ceiling remains at 50,000, this is equivalent to the number of refugees who are normally accepted in a year. As I've posted earlier, when the ceiling was set at 85,000 refugees in 2011, the country received about 9,000 refugees. During the Cold War, when the refugee ceiling was set at 110,000, the United States received more than a million displaced persons. The American people are not interested in a program that accepts only 9,000. They need to be presented with clear and realistic numbers that accurately portray what this country is capable of doing. This is particularly important when you consider that there are 62 million people in the United States. Nearly one million are between the ages
