I have a field that I need to be case-insensitive for searching, and I need to use a bang (!) on the beginning of the field to indicate search case is insensitive. This worked: self.name[0].upcase! But I need to be case insensitive. I found the ICU gem which looks like it does this, but I have no idea how to use it. I have not gotten it working and I also do not know the best way to do what I want to do. I simply want to search in the case insensitive manner and then case the name if I get a match.

To prevent stent thrombosis after coronary stent implantation, the combination of a self-expanding coronary stent and an external fixation device may be utilized. We report a case of successful transvenous percutaneous fixation of a screw-in coronary stent to the descending thoracic aorta. A combination of a self-expanding polytetrafluoroethylene-covered stent and an angled proximal aortic bifurcation plate was inserted percutaneously from the left ventricular apex. Subsequent sheath-to-catheter exchange into the left ventricle was facilitated by further deployment of the proximal aortic bifurcation plate. There were no immediate complications. In the subsequent 30-day follow-up period, the aorta remained patent. To our knowledge, this is the first description of the combined use of a self-expanding coronary stent and a proximal aortic bifurcation plate in the transvenous approach to left ventricular apex-based stent implantation."Today's an exciting day for New England Patriots fans. I'm extremely excited to be joining Bob Kraft, Coach Belichick, and Tom Brady." — Bill Belichick My friend John Gravina posted a widely-shared column in which he pointed out that the press conference held by Broncos general manager John Elway in which he introduced quarterback Peyton Manning, and subsequent news reports, were written by Denver's five press relations guys. The Elway press conference was scripted, and news of the press conference was then distributed by the press relations guys. Now consider these things: The Patriots are owned and controlled by Bob Kraft, the Broncos by their second owner, Pat Bowlen. When a general manager drafts a quarterback, he's trading with his boss. I like the pitching to be Villanueva/Nova/Soriano/Cervelli + 1 SP for the bullpen. I'm not sure if I like Gonzalez/Harden/Barnes being platoon OFs or if I would prefer LeMahieu to platoon with Aybar. That being said the 15th SP is an interesting choice: Nova, Soriano, Nix, Soler, Quackenbush. Would still love to get either Gonzalez or Barnes in LF (or both) and would love a solid lefty LF to platoon with Martin. The team rotation: Cervelli/Nova/Soriano/Noesi Arrieta/Gonzalez/Harden/Barnes Happ/Martin/Espinosa/Quackenbush Obviously we could switch the 2nd and 4th pitchers around to fill out the rotation.
